GENERAL PERFORMANCE SPECIFICATIONS FOR
PARK ATTENDANT CONTRACTOR SERVICES**

I. GENERAL INFORMATION: The independent contractor must be a two (2) person team, at least 21 years of age, who are **both** physically and mentally capable of performing the contractual responsibilities specified here and in the enclosed “**Specific Recreation Area Contract Performance Requirements**”, for the duration of the contract, including required option periods (when applicable). The contractor may also be referred to as PAC’s, Park Attendant(s), Attendant(s) or contractor(s), throughout these documents.

Note: At locations utilizing the National Recreation Reservation Service (NRRS)[™] and/or AUPS (Automated User Permit System), potential **contractors must possess basic computer skills (ability to operate pre-installed programs on a government-furnished computer, through the use of a keyboard and/or mouse).** Park Office is a Windows[™]-based computer program used for registering campers, tracking fees and processing NRRS[™] reservations. All contractors will be oriented to the applicable programs and associated equipment.

At the conclusion of orientation, potential contractors will be required to demonstrate their ability to proficiently operate required computer programs and credit card equipment, as applicable.

CONTRACTS WILL NOT BE AWARDED TO POTENTIAL CONTRACTORS WHO ARE UNABLE TO DEMONSTRATE PROFICIENCY AS REQUIRED.

Park Attendant Contractor services to be accomplished under this contract shall be in accordance with the provisions of these General Specifications and the enclosed Specific Recreation Area Contract Performance Requirements . Services include, but are not necessarily limited to, furnishing all labor, equipment, fuel, transportation, tools and supplies (except as otherwise noted herein as government furnished) necessary to provide the specified services for the duration of the contract period.

None of the services required by this contract shall be subcontracted, without the prior written permission of the Contracting Officer (COR).

Contractors are prohibited from unilaterally terminating, abandoning or prematurely ending any government contract still in effect in order to accept another government contract.

A. CONTRACTING OFFICER: The term “Contracting Officer” (COR) means the person having authority to enter into, administer or terminate contracts and make related determinations and findings. Contracting Officers are responsible for ensuring performance of all necessary actions for effective contracting, ensuring compliance with the terms of the contract and safeguarding interests of the United States in its contractual relationships.

B. PERFORMANCE SCHEDULE & CONTRACTOR HOURS: Each team of contractors shall perform contractual duties according to the performance schedule and hours specified on the “Specific Recreation Area Contract Performance Requirements”, for which they bid and are awarded. The Operations Manager or his/her representative has the authority to change scheduled performance days and hours as deemed necessary; however, only the Contracting Officer may amend the total number of required performance days per week and/or the amount of hours. The Operations Manager or his/her representative will give the Park Attendant Contractor at least a 24-hour notice of schedule changes initiated by his/her office; the Contracting Officer must amend the contract for permanent schedule changes. On scheduled

performance days, **both members** of the performing contractor team will be present within the park **at all times**, and the park attendant station (also referred to as a gatehouse) will be continuously staffed by at least one member of the team, during hours outlined on the Specific Recreation Area Contract Performance Requirements. During non-peak performance hours of scheduled days (see applicable Specific Recreation Area Contract Performance Requirements), the performing contractor team will be continuously present within, or in the immediate vicinity of, their designated contractor living quarters, and available to provide customer support as needed. Customer support includes, but is not limited to, summoning medical or other emergency assistance and opening gates to allow those claiming an emergency to leave and/or allow emergency vehicles into the park.

C. CONTRACTOR ORIENTATION: All successful bidders must attend an orientation session prior to onsite performance of contractual responsibilities, as specified in the “Specific Recreation Area Contract Performance Requirements”. Lunch is not provided. The session(s) will provide guidance on how to complete user permits and receipts, collect and account for user fees, operate applicable equipment and computer programs, process credit card transactions, reserve facilities (if applicable), record pertinent data, and effectively deal with customers. An overview of contractor responsibilities and policies outlined in the contract and the Project’s Park Attendant Contractor Guide will be presented. **NOTE: At the conclusion of orientation, potential contractors will be required to demonstrate their ability to proficiently operate required computer programs and credit card equipment, as applicable. CONTRACTS WILL NOT BE AWARDED TO POTENTIAL CONTRACTORS WHO ARE UNABLE TO DEMONSTRATE PROFICIENCY AS REQUIRED.**

D. PETS: Some of the recreation areas included in the requests for quotation do not allow pets; therefore, Park Attendant Contractors at such areas may be prohibited from having pets of any kind. No exceptions will be made, so it is important that you consult the “Specific Recreation Area Contract Performance Requirements” to determine each location’s policy, prior to bidding. Where pets are allowed, they may be restricted to the interior of Park Attendant Contractor’s living quarters. If allowed outside, pets shall be kept on a leash 6’ or less in length, or otherwise physically restrained, at all times. The Operations Manager will have the option of approving portable cages or containers for temporary (daytime) outdoor confinement of pets. All pets shall be confined or restrained in a manner that will prevent physical contact with visitors that might come to the Park Attendant Contractor’s living area or quarters for assistance. Pets shall not be allowed in or near the gatehouse (NO EXCEPTIONS). Park Attendant Contractors will be liable for any damage to government facilities, damage to park visitors’ property, or personal injuries caused by their pets. PAC’s will be responsible for daily cleanup of their pet’s waste and disposing of the same in an approved, sanitary manner. Where pets are allowed, they will be kept clean, free of foul odors, and have all vaccinations as required by the state laws in effect at the park’s location. Park Attendant Contractors are responsible for effectively controlling all pests or parasites associated with pets. Failure to comply with these provisions could result in termination of the contract.

II. CONTRACTOR GENERAL RESPONSIBILITIES: In addition to general contractual responsibilities stated herein, contractors are responsible for performance items detailed in “Specific Recreation Area Contract Performance Requirements”. Bidders should review these carefully before submitting bids, as they contain information about park type(s), performance schedules and area-specific provisions. Okatibbee Lake also has special requirements for cleaning and maintenance of park facilities. Park Attendant Contractor general responsibilities include, but are not limited to: providing information and assistance to customers, conducting inspection tours of the park and its facilities, controlling visitor access to the park; opening and closing gates, monitoring visitor compliance with visitation and quiet hours, issuance of user permits, reserving sites and facilities, posting reservation signs, registration of campers and visitors if applicable, and collection and remittance of a

variety of user fees in accordance with the “Specific Recreation Area Contract Performance Requirements”. All contractual provisions shall be performed to the satisfaction of the Contracting Officer or his/her authorized representative.

A. CUSTOMER ASSISTANCE AND PUBLIC INTERACTION: The primary role of Park Attendant Contractors is to courteously assist visitors, and their secondary role is to tactfully and respectfully inform customers of the rules and regulations in an attempt to gain compliance. Park Attendant Contractors are not rule and regulation enforcement personnel and shall not argue with, threaten, or badger uncooperative visitors. Nor will Park Attendant Contractors attempt to detain or apprehend violators or conduct searches of people or personal property. Park Attendant Contractors shall perform their responsibilities with professionalism. Contractors will not use profanity in the presence of the public, project personnel, or other contractors.

1. Park Attendant Contractors must be able to interpret and comply with the rules and regulations. Contractor will become familiar with Title 36, CFR, Chapter III, Part 327, “Rules and Regulations Governing Public Use of Corps of Engineers Water Resource Projects,” as well as, park-specific policies, rules and requirements. **Park Attendant Contractors will promptly report to a Corps Park Ranger, all accidents, violations of law, disturbances, and situations that could affect the health and safety of visitors. Serious or life-threatening incidents and emergencies will immediately be reported to Corps personnel and/or local law enforcement. In the event Park Attendant Contractors are unable to contact a Park Ranger, they shall contact local law enforcement officers, and then report the incident to a Park Ranger as soon as possible.** To the extent Park Attendant Contractors do not place themselves in danger, they should legally collect all information possible, such as tag numbers, descriptions of persons and possessions, names and addresses, witness statements, and any other pertinent information that may assist Rangers and/or law enforcement personnel. Other situations and incidents will be reported to Park Rangers as instructed in the Project Park Attendant Contractor Guide or orientation sessions. Rangers will handle each case on its own merits in accordance with professional training and discretion, and Park Attendant Contractors should not attempt to direct, manipulate, undermine, oppose or “second-guess” decisions made by Rangers.

2.a. Park Attendant Contractors shall greet customers in a friendly manner as they arrive at the park, and distribute information, such as pamphlets, brochures, maps, park rules and regulations, and project information, as needed or as directed by the Operations Manager. Park Attendant Contractors will assist visitors courteously and professionally, by locating facilities, sites, park features and local attractions. As they enter the park, customers will be informed of park hours, including applicable quiet hours and visitation hours. Customers will also be advised to utilize designated facilities only, including roadways, parking facilities and campsites, as applicable. When parking areas are full, customers will be directed to designated overflow parking, if available.

b. Customers should also be made aware that if problems occur, they should contact you to forward the information to appropriate personnel. If customers remain past allowable times, Park Attendant Contractors will courteously ask them to depart, and if they refuse, report them to an on-duty Corps of Engineers Park Ranger.

3. Park Attendant Contractors will deliver messages to park users in accordance with Project policy. Emergency messages will be delivered to customers without undue delay. **Park Attendant Contractors will immediately assist the public by summoning medical or emergency assistance when an emergency is observed or reported, and then contact a Park Ranger to report such incidents.**

4. **Without exception, Park Attendant Contractors will immediately open park entrance gates for**

those claiming a need to leave for emergency reasons, and/or for those users who demand to be let out of the park. Park Attendant Contractors will also open gates to allow emergency vehicles access to the park and customers. Park Attendant Contractors will open and close campground and day-use area gates as required by the applicable “Specific Recreation Area Contract Performance Requirements”. They will also oversee picnic pavilions and multi-use courts, including turning power on or off and posting reservations for both pavilions and individual campsites, as applicable.

5. Park Attendant Contractors will maintain a logbook of park activities, including, but not limited to: accidents, incidents, emergencies, complaints, and problems. Park Attendant Contractors will maintain a written record of vehicles entering the park with Courtesy Passes, if applicable, and a separate record of other vehicles entering the park for other purposes (e.g. maintenance contractors, law enforcement personnel, utility workers, service vehicles, etc.). Records will be turned into project management personnel as instructed.

6. Park Attendant Contractors will not discriminate against customers on the basis of race, color, religion, sex, national origin, marital status, or disabilities.

7. During performance dates and hours, Park Attendant Contractors will remain within hearing distance of government-furnished communications equipment (except when responding to emergencies, if no portable units are provided). The gatehouse or entrance station will be locked whenever unattended.

8. Park Attendant Contractors will not carry firearms in their vehicles or on their persons at any time, nor will firearms be allowed in gatehouses or Park Attendant Contractor living quarters.

B. FEE COLLECTION, ACCOUNTING, & PROCESSING: Park Attendant Contractors will maintain all records necessary for the administration of the user fee program. Depending on the “Specific Recreation Area Contract Performance Requirements”, this may involve the utilization of a computerized registration and reservation program such as the Automated User Fee Program (AUPS), National Recreation Reservation Service/Park Office (NRRS)TM, credit card scanners and printers, User Fee Permits (ENG Form 4457), Electronic Cash Registers, Cash Collection Vouchers (DD 1131), Remittance Registers (ENG 3313), rosters, campsite status boards, passes, etc. Consult applicable “Specific Recreation Area Contract Performance Requirements” for more detailed information. Guidance will be provided at contractor orientation sessions.

1. Park Attendant Contractors will collect a variety of user fees as specified in the applicable “Specific Recreation Area Contract Performance Requirements”. Examples of user fees collected include those for campers, visitors, and day users. User fees collected will be properly secured. Cash on hand must at all times correspond with permit and related records. There will be no commingling of personal cash with fees collected by Park Attendant Contractors.

2. Park Attendant Contractors may be responsible for administering picnic pavilion reservations and campsite reservations. This may include coordinating with the NRM Site Management Office, taking reservations over the phone and/or computer through the use of the National Recreation Reservation System (Park Office computer program), posting reservations, collecting user fees from those users making reservations and issuing receipts to customers.

3. At locations participating in the National Recreation Reservation Service (NRRS)TM, Park Attendant Contractors will operate the Park OfficeTM computerized reservation system. All Park Attendant Contractors may be required to operate credit card machinery, and/or Electronic Cash Registers. These

methods assist in the collection and tracking of recreation user fees and reservations using computers, electronic hardware and programs supplied by the government. **Orientation to the AUPS Program , Park Office (NRRS)™, credit card machines and cash registers will be provided, as applicable, prior to the start of the contract. At the conclusion of orientation, potential contractors will be required to demonstrate their ability to proficiently operate required computer programs and process credit card transactions. Contracts will not be awarded to potential contractors who are unable to demonstrate proficiency as required.**

4. User fees and records will be subject to audit by government personnel at all times. Monies and credit card charges on hand must agree with permits sold. The responsible Park Attendant Contractor must reconcile all discrepancies. **Unjustifiable differences may result in contract termination for default.**

5. Park Attendant Contractors may be required to convert fees to a cashiers check or money order (made payable to NRRS; F&A Officer, Mobile District COE; or as otherwise officially specified) and mail converted fees and specified documentation to a Corps authorized account via certified mail. Alternately, Park Attendant Contractors may be required to deposit user fees directly into an approved U.S. Treasury Department account or submit funds to Project Ranger staff for remittance. **In either case, the “Specific Recreation Area Contract Performance Requirements” should be consulted to determine if Park Attendant Contractors will be responsible for the cost of converting fees into a money order or cashier’s check.** Park Attendant Contractors will process all required documentation, such as cash collection vouchers, deposit slips and remittance registers (either AUPS or Park Office generated or manually completed) in accordance with Corps policies. Detailed fee processing procedures will be provided at orientation. Park Attendant Contractors will be responsible for the cost of envelopes and certified postage, as well as, preparation time, reproduction expenses, and transportation costs. If fee transportation to a bank or Project Office is required, the approximate round trip mileage will be stated in the “Specific Recreation Area Contract Performance Requirements”. **Compensation for these items must be included as a part of the potential contractor’s bid price.**

6. Contractors will take precautions to assure personal safety and security of fees, per guidance provided at the Park Attendant Contractor orientation and in the Park Attendant Contractor Guide. Where provided, an approved safe will be used by the Park Attendant Contractors to secure all user fees. Cash drawer funds should not exceed \$250 at any time. Transfer of fees to a bank, lock-box account, or to authorized project personnel (as stated on the applicable the “Specific Recreation Area Contract Performance Requirements”) will be required no less than once a week or at any time cash on hand exceeds \$5,000.00, or at a lower threshold specified by the Operations Manager.

7. At authorized locations, Park Attendant Contractors will issue Annual Day User Passes, Golden Age/Golden Access Passports and Project Hunting Permits to eligible individuals, and complete documentation as outlined in Project Policies and the Park Attendant Contractor Guide.

C. CLEANING AND MAINTENANCE: Park Attendant Contractors will maintain the park gatehouse and immediate surroundings in a clean, orderly and sanitary condition at all times. This shall include, but not be limited to, daily sweeping, dusting, washing windows, and properly disposing of trash. General maintenance of all shrubbery beds in the vicinity of the gatehouse will be part of this contract. **NOTE: Okatibbee Lake requires additional cleaning, policing, garbage collection and disposal, and/or other specified general maintenance of park facilities and grounds, such as shower-houses, restrooms, picnic sites, shelters, and/or campsites. Consult the “Specific Recreation Area Contract Performance Requirements” to determine required performance responsibilities and equipment.**

Contract dates: 23 Sep 03 – 26 Feb 04

Total number of working days: 77 *

Last year's daily bid price: \$50.00

*** - See Section IX for actual working dates.**

NOTE: A separate bid must be submitted for each contract (Attendant "A" or Attendant "B") you are interested in, by entering a bid on the corresponding line item number on this project's enclosed SOLICITATION/CONTRACT/ORDER FOR COMMERCIAL ITEMS (STANDARD FORM 1449). Contractor duties and responsibilities and other terms and conditions listed in this specific park sheet are the same for each contract except for the work schedule, which is shown in Section IX.

II. PARK DESCRIPTION: R. Shaefer Heard Campground is located approximately four miles north of West Point, Georgia, off U.S. Highway 29, on the southeast side of West Point Project. The park has 117 campsites (all with utility hookups) for the public. It also has an amphitheater, a boat ramp, two shower houses with laundry facilities, a dump station, a playground, and six restroom buildings. A softball field and a tennis court are located just outside the park entrance. Total distance for one complete inspection of the park is approximately 5 miles.

III. HOURS OF WORK: Both park attendants "A" and "B" will work a four (4) day shift, four days on duty and four days off duty, and will work all of the federal holidays that fall within their normal four-day shift. Twenty-four hour shifts begin at 7 a.m. each morning and end at 7 a.m. the following morning. During the actual workdays of the contract period, Wednesday, October 1, 2003 – Thursday, February 26, 2004, attendants will operate the gatehouse control station for a minimum of nine (9) hours each day during the hours 7:00 a.m. until 11:00 a.m., and from 5:00 p.m. until 10:00 p.m. Park attendants must be available fifteen (15) hours in the park when off duty each day and night. **Please note:** Normally during the late fall and early winter months, from late November until early February, 79 of the 117 campsites in the campground are closed because of a decrease in demand. During periods of pleasant fall weather, however, usually in October and early November, the campground may fill to capacity on weekends. To satisfy this increased demand, park attendants may be required to operate the control station/gatehouse for

the entire period, from 7:00 a.m. until 10:00 p.m.

IV. ORIENTATION: Park attendants are required to attend all sessions of a four-day training session beginning at 8:00 a.m., Tuesday, September 23, 2003, at the Project Management Office. These meetings will conclude by 3:00 p.m. each day. Park attendants will be paid their normal daily rate for attendance.

If a money order or cashier's check is purchased, the attendant is responsible for payment of the fee for the money order or check. The approximate round trip mileage from the campground to a location to purchase the money order or check in West Point is 12 miles. The round trip distance to the one of the same types of locations in LaGrange is approximately 25 miles. CLAUSES INCORPORATED BY FULL TEXT

52.202-1 DEFINITIONS. (DEC 2001)

(a) Agency head or head of the agency means the Secretary (Attorney General, Administrator, Governor, Chairperson, or other chief official, as appropriate) of the agency, unless otherwise indicated, including any deputy or assistant chief official of the executive agency.

(b) Commercial component means any component that is a commercial item.

(c) Commercial item means--

(1) Any item, other than real property, that is of a type customarily used by the public or by non-governmental entities for purposes other than governmental purposes, and that--

(i) Has been sold, leased, or licensed to the general public; or

(ii) Has been offered for sale, lease, or license to the general public;

(2) Any item that evolved from an item described in paragraph (c)(1) of this clause through advances in technology or performance and that is not yet available in the commercial marketplace, but will be available in the commercial marketplace in time to satisfy the delivery requirements under a Government solicitation;

(3) Any item that would satisfy a criterion expressed in paragraphs (c)(1) or (c)(2) of this clause, but for--

(i) Modifications of a type customarily available in the commercial marketplace; or

(ii) Minor modifications of a type not customarily available in the commercial marketplace made to meet Federal Government requirements. "Minor" modifications means modifications that do not significantly alter the nongovernmental function or essential physical characteristics of an item or component, or change the purpose of a process. Factors to be considered in determining whether a modification is minor include the value and size of the modification and the comparative value and size of the final product. Dollar values and percentages may be used as guideposts, but are not conclusive evidence that a modification is minor;

(4) Any combination of items meeting the requirements of paragraphs (c)(1), (2), (3), or (5) of this clause that are of a type customarily combined and sold in combination to the general public;

(5) Installation services, maintenance services, repair services, training services, and other services if--

(i) Such services are procured for support of an item referred to in paragraph (c)(1), (2), (3), or (4) of this definition, regardless of whether such services are provided by the same source or at the same time as the item; and

(ii) The source of such services provides similar services contemporaneously to the general public under terms and conditions similar to those offered to the Federal Government;

(6) Services of a type offered and sold competitively in substantial quantities in the commercial marketplace based on established catalog or market prices for specific tasks performed under standard commercial terms and conditions. This does not include services that are sold based on hourly rates without an established catalog or market price for a specific service performed. For purposes of these

services--

(i) Catalog price means a price included in a catalog, price list, schedule, or other form that is regularly maintained by the manufacturer or vendor, is either published or otherwise available for inspection by customers, and states prices at which sales are currently, or were last, made to a significant number of buyers constituting the general public; and

(ii) Market prices means current prices that are established in the course of ordinary trade between buyers and sellers free to bargain and that can be substantiated through competition or from sources independent of the offerors.

(7) Any item, combination of items, or service referred to in subparagraphs (c)(1) through (c)(6), notwithstanding the fact that the item, combination of items, or service is transferred between or among separate divisions, subsidiaries, or affiliates of a Contractor; or

(8) A nondevelopmental item, if the procuring agency determines the item was developed exclusively at private expense and sold in substantial quantities, on a competitive basis, to multiple State and local Governments.

(d) Component means any item supplied to the Government as part of an end item or of another component, except that for use in 52.225-9, and 52.225-11 see the definitions in 52.225-9(a) and 52.225-11(a).

(e) Contracting Officer means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the Contracting Officer acting within the limits of their authority as delegated by the Contracting Officer.

(f) Nondevelopmental item means--

(1) Any previously developed item of supply used exclusively for governmental purposes by a Federal agency, a State or local government, or a foreign government with which the United States has a mutual defense cooperation agreement;

(2) Any item described in paragraph (f)(1) of this definition that requires only minor modification or modifications of a type customarily available in the commercial marketplace in order to meet the requirements of the procuring department or agency; or

(3) Any item of supply being produced that does not meet the requirements of paragraph (f)(1) or (f)(2) solely because the item is not yet in use.

(g) Except as otherwise provided in this contract, the term "subcontracts" includes, but is not limited to, purchase orders and changes and modifications to purchase orders under this contract.

(End of clause)

52.212-1 INSTRUCTIONS TO OFFERORS--COMMERCIAL ITEMS (OCT 2000)

The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

 - (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
 - (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.
- (c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.
- (d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. - (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.
 - (2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be

considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified.
